

Online Ordering Made Simple!

As Part of the recent Upgrade, we now have 4 methods of placing Online Orders:

There are 3 methods available under the **My Account** Menu on the Home page:

1. Profile Order

An order list that is populated with items bought in recent history.

2. Favourites

Create your own list of Pantry items that you control.

3. Lists

Create any number of pastry lists for your store by saving a shopping Basket of items.

The screenshot displays the Torino Food Service website interface. At the top, the header includes the Torino logo, navigation links (ACCOUNT, LOGOUT, PROFILE), the phone number 1300 TORINO, and the slogan "Good Products, Good Service, Good Prices". A search bar and a "Quick Search" button are also present.

The main navigation menu includes: HOME, PRODUCTS, MY ACCOUNT, INFORMATION, ABOUT US, TORINO NEWS, ADMIN. The "MY ACCOUNT" menu is expanded, showing options: History, Position, Countrywide Rewards, Favourites, Profile Order (highlighted), and Lists.

The central banner features the "prontofresco" logo with the text "SPECIALITÀ PER LA RISTORAZIONE" and "GRECI". Below the banner are six circular icons representing different services: ORDER ONLINE (EMPTY), PRODUCTS (EMPTY), VIEW OUR LATEST CATALOGUE (EMPTY), DISTRIBUTION AREAS (EMPTY), VIEW OUR LATEST SPECIALS (EMPTY), and CONTACT US (EMPTY).

On the right side, a shopping basket is visible, containing six items:

The Profile Order replicates our in house accounting software Nexus. All products on your profile are managed through our head office. If they have been added to your profile in Nexus, they will be available online.

Products drop off your profile if they have not been ordered in 6 months or if they are manually removed.

A recent change to the functions within Nexus, means items ordered online that were not originally on your profile will be added to your profile.

Customers may have noticed that products were dropping off their profile online, the above change has addressed this and your profile will be repopulated as you purchase over the coming weeks.

Details such as stock levels, history price and unit are all available through the profile order, as well as a collapsible product group filter.

Each Page contains a 100 items by default; if your profile has more than 100 items then you will have to scroll to the next page using the arrow buttons or increase the number of items on each page. (The number of products on your profile can be seen in the header of the filter.)

IMPORTANT: MAKE SURE YOU HIT THE "BUY" BUTTON BEFORE PROCEEDING TO THE NEXT PAGE OR YOUR QUANTITIES WILL BE LOST!

When you hit the Buy button, stock is moved to your Basket until you check out or remove the items from your basket.

Products in your Profile Order are listed in order of Product Class, i.e. Chiller, Dry then Frozen and then alphabetically by product code.

2. Favourites

This is another way to order buy creating a list which is totally in your control.

A product can be added to you favourites by clicking on the star underneath the product image. (see below)

The screenshot shows the product page for '10mm GOLDEN PRIDE FRIES 15KG'. The price is \$22.90 per CTN. A red dashed circle highlights a star icon below the product image, with a tooltip that says 'Click to add item to your favourites'. The page also features a 'Buy' button and a 'Check Availability' link.

If the star is solid black in colour, it is now a favourite. If it is only outlined (like above), it's not.

Once you've shorted out your favourites, you can view them in 3 formats: Standard, List or Mega Order pad View. (pictured below). You can change your view using the icons circled below.

The screenshot shows the 'FAVOURITES' page. Three view icons (Standard, List, Mega Order pad) are circled in red. The Mega Order pad view is selected, showing a table of products and their quantities. The table has columns for Code, Description, Qty, Add, Code, Description, Qty, and Add.

3. Lists

“Lists” are another way of placing orders online; this function was newly installed during the last upgrade.

You can create multiple lists any way you want!

For example: you can organise lists by location, i.e. storeroom, freezer, Fridge. Or by product category, i.e dairy, drinks packaging etc. Whatever you want!

IDEAL FOR CUSTOMERS WHO HAVE A BIG PANTRY LIST!

The screenshot displays the Torino Food Service website's shopping list page. The header includes the Torino logo, navigation links (ACCOUNT, LOGOUT, PROFILE), and contact information (1300 TORINO). A search bar and a shopping basket icon are also visible. The main content area is titled 'SHOPPING LISTS' and shows a list named 'SHOPPING LIST A'. The list is private and was created on 11/12/2014. It contains the following items:

Product Code	Description	Quantity	
VEGEMITE	VEGEMITE 2.5KG	4

CHIPS/MCCAINS	10mm STRAIGHT CUT FRIES 15KG	1

The right sidebar shows a shopping basket with a total of \$0.00 and buttons for 'Save', 'Empty', and 'Checkout'. The footer contains copyright information and links to Terms & Conditions, Privacy Policy, and Contacts.

Add a list to your basket by hitting “buy” button, then if needed edit your numbers in the basket.

A list can be edited easily or deleted as well.

Instruction on List can be found on the List Page under the My Account Tab on the home page.
